EXPERIENCE

Indian Army 11 Corps Zone WKSP

May 2025 – July 2025

Technical Intern

Punjab, India

- Engineered a mission-critical Drone Surveillance **dashboard** using **React**, **TanStack Query**, **Chart.js**, enabling **real-time threat telemetry** with **34% faster event loads** (190 ms reduction) and **+23 Lighthouse score**; ensured **WCAG 2.1 AA** and defence-grade **RBAC** access control, integrating **audio-visual anomaly logs** for higher operator precision.
- Implemented a hardened **Node.js + Express** backend with **WebSockets** for low-latency drone event ingestion, reducing packet-delay variance by **27%**; optimized **MongoDB Aggregation Pipelines** for telemetry analytics and conducted **responsive testing** using **Vitest**, achieving field-grade performance under variable network conditions.

EDUCATION

Lovely Professional University

Aug 2022 - Jul 2026

Bachelors of Technology in Computer Science and Engineering, CGPA : **7.65** / 10

Phagwara, Punjab

SKILLS

- **LANGUAGES** ➤ HTML, CSS, JavaScript, (ES6+), Typescript, Python, SQL, Java (DSA)
- **FRONTEND** ➤ React, Tailwind CSS, Next.js, Redux, Material UI, Radix UI
- **BACKEND** ➤ Node.js, Express, RESTful APIs, FastAPI, Flask, TanStack Query, Socket.io, Convex
- **DATABASES** ➤ MySQL, MongoDB, PostgreSQL, Redis
- **CLOUD** ➤ Google Cloud Platform (GCP), Amazon Web Services (AWS)
- **DEVOPS** ➤ Git, Docker, Kubernetes, Jenkins, Vite, Webpack, Vitest
- **TOOLS** ➤ Salesforce, GitHub, Visual Studio Code, Postman, Jira, Docker Desktop, MongoDB Compass, Vercel
- **SOFT SKILLS** ➤ Leadership, Problem Solving, Communication, Adaptability, Teamwork
- **CONCEPTS** ➤ Scrum, Agile Methodologies, Software Development Lifecycle, Cost, Schedule and Risk Management, System Design

PROJECTS

Circles  | *NextJS, React, Typescript, Convex, NextAuth, Jotai, Docker, ESLint, Sentry*

Jan 2025 - Jul 2025

- Built a real-time team communication platform with a sub **200ms** (p95) real-time subscription system, using Convex BaaS and serverless functions. Enabled live threads and automatic scaling with Convex Storage for multi-part file uploads to CDN.
- Enabled GitHub & Google OAuth, session management, JWT verification & signature, with middleware-based route protection and RBAC, coordinated development with Agile Sprints and Iterative planning.
- Architected global client-side with Jotai + React Hooks local states (e.g., useGetMessages w/ pagination) and Context API providers for workspace/channel sync & broadcast. Added memoization reducing re-renders by **35%**.
- Implemented **6** indexed schemas and Redis caching, leading to **42%** faster queries (pgbench).
- Enforced a zero-warning repository via ESLint and instrumented Sentry Monitoring with session replays.
- Dockerized the stack and automated CI/CD pipelines with GitHub Actions, cutting build/setup times by **25%**.

Canvasly  | *NextJS, React, Hono, PostgreSQL, Drizzle, TanStack, Stripe, Zod*

Jun 2024 - Dec 2024

- Built a full-stack graphic design platform with SSR, type-safe REST APIs, handling AI capabilities, authentication, storage, and subscriptions applying object-oriented programming and design principles, efficient data structures and robust system Design.
- Developed reusable custom React hooks (useHistory, useCanvasEvents) for canvas manipulation and state management, ensuring clean separation of concerns, error boundaries, fallback UI, and consistent loading-error states.
- Used Zustand for client-side state and TanStack Query for server sync and optimistic updates.
- Engineered sliding-window rate limiting, notification queues, and retry logic using algorithm-design.
- Optimized canvas performance with **500ms** debounce auto-save. Integrated Stripe with webhook signature verification.

ACHIEVEMENTS

- **Lead & Won** at Smart India Hackathon 2024 Senior Software Edition among **500+** teams across the Nation.
- **Granted 100%** Study Scholarship for pursuing under-graduation based on exceptional Performance in Anveshan '24.
- **Ranked** top **0.2%** among **56,000+** Applications at Google Cloud Agentic AI Day 2025.
- **Secured** Global Rank **549** out of **26K+** participants in **LeetCode Biweekly Contest 170**
- **Contributed** to open source in **Checkmate** (**8.2K** Stars) with **PR #2600** and **PR #2617** improving input validation, UX.
- **International Winner** at A.I.U's Anveshan 2024 and 2025, Student Research Convention across **100+** Universities
- **Conducted** Pilot Testing of our AI application **Classing** with **200+** students and teachers at Bhartiya Vidya Mandir.
- **Published** a configurable React Component Library as a npm package **Clever-FAB** with **50+** Downloads (August 2025)
