 CONTINGENCY FOR DELAYED PROPERTY COMPLETION

This quotation assumes that access to the destination property in Dartford is available on the agreed moving date.

In the unlikely event that the property sale or purchase does not complete as planned and access is unavailable upon our arrival, we will unload all items into a secure storage facility in the Dartford area. As this is a long-distance move from Edinburgh, our vehicles and crew will then return to Edinburgh, and our contracted services under this quotation will be deemed complete.

Any subsequent collection from storage and final delivery into the property, once access becomes available, must be arranged separately and will be at the customer's expense. Storage rental costs will also be paid directly by yourself. We can assist in recommending a local Dartford-based removals company to complete the final stage if required.

We do not anticipate any issues with your completion, but this clause ensures all parties understand the procedure should an unforeseen delay occur.
